

Research Topics for Data Analysis Practice

Factors Affecting Student Attendance.

Relationship between Study Hours and Academic Performance.

Student Satisfaction with College Facilities.

Analysis of Career Preferences among Engineering Students.

Factors Influencing Placement Readiness of Students.

Technology & Education

1. Impact of Social Media on Academic Performance of Students.
2. Effectiveness of Online Learning Platforms among Engineering Students.
3. Use of Artificial Intelligence Tools in Higher Education.
4. Student Perception towards E-Learning Systems.
5. Impact of Mobile Phone Usage on Study Habits.

Cybersecurity

Awareness of Cybersecurity Practices among College Students.

Impact of Cyberbullying on Students.

Study of Password Management Habits among Internet Users.

Awareness and Prevention of Phishing Attacks.

Analysis of Social Engineering Attacks and User Awareness.

Social Network Analysis

Impact of Social Networking Sites on Communication Patterns.

Study of Online Communities and User Engagement.

Influence of Social Media Influencers on Consumer Behavior.

Analysis of Friendship Networks among College Students.

Role of Social Media in Information Dissemination.

Artificial Intelligence & Emerging Technologies

Awareness and Acceptance of AI-Based Applications.

Impact of ChatGPT and Generative AI on Student Learning.

Public Perception of Autonomous Vehicles.

Adoption of Smart Technologies in Daily Life.

AI and Ethical Concerns: A Student Perspective.

Digital Society

Impact of Digital Payments on Consumer Behavior.

Usage Pattern of UPI among College Students.

Awareness of Digital Privacy and Data Protection.

Effects of Online Shopping on Traditional Retail Business.

Factors Influencing Adoption of Digital Banking.

Health & Lifestyle

Relationship between Screen Time and Academic Performance.

Impact of Social Media on Mental Well-being of Students.

Study of Internet Addiction among Engineering Students.

Effect of Physical Activity on Academic Achievement.

Sleep Patterns and Academic Performance among Students.
